**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The amendment filed 8/30/04 has been entered.

#### *Claim Rejections - 35 USC § 102*

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Crowley. Crowley discloses a method for the production of administration forms that includes arranging tapes to a multilayered strand (see col. 5, lines 1-3) aligning and transporting the strand to a cross-cutting scissor (see col. 5, lines 3-6), inserting the leading end of the stack into a pre-opened dispenser and transferring the stack directly into the pre-opened dispenser (see col. 6, lines 19-39).

#### *Response to Arguments*

3. Applicant's arguments filed 8/30/04 have been fully considered but they are not persuasive.
4. The applicant states that Crowley does not disclose a plurality of individual administration sheets or forms because administration forms contain substances to be administered. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., substances on forms) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).
5. The applicant states that Crowley does not disclose inserting the leading end of the stack into a dispenser. In response, the examiner notes that Crowley discloses transferring all ends into a dispenser.

Art Unit: 3651

6. The applicant states that, since Crowley discloses folding before inserting, Crowley does not disclose inserting directly after cutting since Crowley discloses folding before inserting. In response, the examiner notes that, even if the applicant's argument were correct, the applicant's amended claim merely recites that, after inserting, the stack is transferred directly into a dispenser. Crowley discloses this limitation.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
